

ORDER TRACKER GOLDEN RULES

Do not produce any work without an entry in OT

ATTACHMENTS :

- Email & Instructions & Estimates that created the order must be in the ATTACHMENTS tab.
- Any critical communication like an approval to proceed with a large job / proof must be in the attachments tab.

PRODUCTION :

- Anything that you produce, services you provide must be recorded accurately in the production tab.

TAGS :

- Use tags where appropriate as it suits each departments internal workflow.

DELIVERIES :

- Deliveries that are going to 3rd parties must be captured in the TRANSMITTALS tab with accurate address & postal code.

TRANSFER JOBS :

- The physical action of transferring a job from one dept / branch to another must be captured with a drag & drop or transfer in OT.
- The transfer in OT is to be done as close as possible to the physical transfer – not earlier, not at the end of the day.

SPLIT JOBS :

- Splitting a job between departments / branches must be captured with a **copy** drag & drop or **copy** transfer.

COMPLETE IN PRODUCTION :

- Completing a job and giving to dispatch requires a drag & drop to dispatch outgoing queue for all departments working at Carnforth at the time the job is given to dispatch, not earlier, not later.
- Branches can complete out of their production queue.
- A barcoded packing slip or transmittal must exist in all cases.

DISPATCH :

- All deliveries leaving need to be recorded via barcode scanners and a driver runsheet must be printed for signing by client.
